## **Enable Modernizes Headquarters and Roszel Day Services**

*Princeton, NJ, September 30, 2016:* The renovation, expansion and reconfiguration of Enable's office headquarters at 13 Roszel Road in Princeton, NJ was completed in September 2016. This is the first time the offices have been updated since 2007. Enable's Roszel Day Services has also expanded and receives an additional meeting room in the new plan. Construction took place while the building was occupied with no interruption of services.

"Enable is healthy and strong and our offices needed to grow along with our organization," said Sharon Copeland, Enable's Chief Executive Officer. "Renovations were the cost-effective solution to our growth needs. We are committed to ensuring that our employees have safe and appropriate office space in which to work and that visitors to Enable see us at our best."

The renovations modernize the office and add space for additional employees. The growing work force required a larger training area. With the transition to fee-for-service, Enable needed a larger public reception area and more meeting rooms for receiving families and prospective consumers. Enable's developing services meant an increase in the number of workers traveling to numerous sites who needed a common office space at headquarters. Fresh paint and new carpet were added to existing office spaces as well as to Roszel Day Services. Photos of consumers and staff will be displayed throughout the offices.

The public is invited to visit the newly renovated headquarters and Roszel Day Services at 13 Roszel Road, Suite B110, Princeton, during office hours, Monday through Friday, 9 am to 5 pm.
